TouchView Interactive
LITE SERIES, Gen 2

Ease of Use and Flexibility

With a focus on flexibility and scalability, the latest version of the TouchView LITE is at home in any environment.

Continuing our pioneering work with modular design, the latest version of LITE Series now features a dual OPS configuration ensuring your panels are ready for any environment.

Simply slot in one of our Android, Windows, or Chrome OPS devices (or connect your own device) to work in any platform.

Our Android OPS features our popular ULTRA Series platform including Google Play. This ensures you'll always have the freshest version of your apps, automatically.

Featuring stunning 4K resolution, powerful full range speakers, and up to 50 points of touch, the LITE Series provides all the technology you need to create, share, and interact. The dual slot design even allows you toggle between operating systems.

Impressive connectivity ensure the LITE Series is easy to use in both Education and Corporate environments.

Google Play

Ultra High Definition 4K resolution

Responds to 50 simultaneous points of touch

Embedded WiFi; Windows, MAC, and Chrome compatible

INTERACTIVE SOLUTIONS FOR:

EDUCATION **HOSPITALITY** **FINANCE**

MANUFACTURING **GOVERNMENT**
