### IMPORTANT SAFETY INSTRUCTIONS

Improper installation may cause property damage or personal injury. If you do not understand these directions, or have doubts about the safety of the installation, contact Customer Service or call a qualified contractor.

#### Safety information

##### Warning

The product should be installed by a qualified professional specified by the retail store. Product installation by non-qualified personnel is very dangerous and may cause personal injury.

When moving or replacing the product after installation, contact a qualified installer specified by the retail store. Installation or movement of the product must be carried out by a skilled professional. If an unqualified person moves and installs the product, it may cause safety risks.

Be sure not to hang the power cable and signal cable on the back of IFP when installing the wall-mounted IFP. Damaged cables may result in fire, electric shock, or damage to the product.

The product should be installed where its weight can be fully supported. If the product is installed on a weak surface, the product may fall, causing injury.

Do not hang on this product, protect the product from severe impacts after the installation. The product may fall and cause injury.

This product contains small items that could be a choking hazard if swallowed. Keep these items away from young children.

##### Caution

Follow the instructions in this manual to product properly. If you do not follow these instructions, the product may be installed incorrectly and cause serious injury or the product may become damaged.

When installing the product, first check that the wall is flat and strong enough. Use the anchors and screws provided. If you use anchors and screws that are not specified by the manufacturer, they may not hold the weight of the product, causing safety issues.
