

TV-UpgradeMod-G5

At TouchView Interactive everything we do is focused on ease-of-use.

Now with our Android Upgrade Module it's easy and economical to upgrade your existing ULTRA Series panel making you ready for the newest Android features.

Simply slide in the Android Upgrade Module featuring our popular Google EDLA Gen 5 firmware to take advantage of all the benefits of features such as whiteboarding, screen sharing, and integrated cloud drives.

Access to the latest content also just got a lot easier with the ULTRA Series Upgrade Module. Now with Google Play you'll always have the freshest version of your apps, automatically.

Designed with the modern classroom in mind, the Android Upgrade Module features a fast processor combined with memory and storage to tackle all your whiteboarding needs, the latest in network connectivity, and loads of connection ports including USB-C.
