# EXPERIENCE THE FUTURE OF INTERACTIVE LEARNING & COLLABORATION

TouchView is the next generation of interactive touch panels for education and business. Our leading-edge displays are fully interactive to empower learning and engage students and are compatible with all software and operating systems. With 4k resolution, 20 Points of touch, and many upgradeable options, it is perfect for any environment.

Ultra-sharp 4K Resolution

Browse the web without a PC

Includes HDMI, VGA, RS232 and USB video connections

Touch-menu instant access to folders & files, apps, and settings

Ultra High Definition 4K resolution

Responds to 20 simultaneous points of touch

Embedded WiFi; Windows, MAC, and Chrome compatible

USB and HDMI ports easily accessible on the front of screen

Two easy-grip pens magnetically held onto screen bezel

Key function buttons on the front of the screen

The **TouchView Interactive Ultra Series** provides the ultimate in connectivity and flexibility in any environment. Our Windows 10 Pro Intel OPS module allows you to access the Windows environment including Windows Ink, without needing to plug a computer into the panel. Using a Certified by Google Chromebox, you can quickly access the Google Classroom interface.

Combined with our on-board applications, business process management tools and access to K20 STEAM curriculum, the Ultra series provides all the enhanced productivity and collaboration tools needed by any campus or organization to share information and collaborate in real-time.

## G Suite for Education

## ACCESSORIES

### Carts and Mounts:

Enhance flexibility and ensure ADA compliance with our mobile carts and wall mount solutions designed to ensure safety and room flexibility. Featuring motorized and non-motorized options with anti-collision safety features, up to 35" of vertical travel and available table-top mode, we have solutions for every work and learning environment. All TouchView Interactive mounts and carts are UL listed.

### Navigation:

Technology should simplify the work and school day not complicate it. At TouchView Interactive, we carried that mindset into the design of our remotes and pens. Our remote is powerful yet intuitive, with a minimal number of buttons to ensure ease of use. Panels come with two ergonomic pens, each capable of independent settings for color and thickness at each of the tips.

## CONNECTIONS & COLLABORATION

Modern classrooms and businesses demand technology that facilitates the efficient exchange of information and ideas. Our new **TouchView Ultra** was designed with those concerns in mind. A powerful combination of connected hardware and intuitive software, the **TouchView Ultra** is easy to manage and even easier to use. Collaborative tools, easy access to cloud accounts and powerful applications are now available in a budget-friendly package for educators, presenters, and learners of every age. At TouchView Interactive, we are committed to providing our customers with the highest quality touchscreens, putting a premium on ease of use and low total cost of ownership.

### ESHARE

Collaborate on the fly or mirror your screen in real-time. Our **EShare** technology allows you to quickly and easily share content such as files, videos, and photos to and from your TouchView Interactive panel.

The **EShare** client works on almost any device and across all the major platforms: Windows, Android, IOS and Mac OS.

### S-Write

We designed our **S-Write** whiteboarding software for ease of use and ease of collaboration. Customizable backgrounds, true multi-person use with split-screen capability and dual pens with personalization features, this infinity whiteboard is built for modern group usage. Import and export notes to the internal or external drives, share through email, QR codes or upload to your cloud drive. Additional tools include "sticky" notes, picture import, shape and line drawing, and hide and reveal.

*S-write!*
